PESTICIDE AND/OR FERTILIZER BULK STORAGE FACILITIES REGISTRATION FORM

Administrative regulation 302 KAR 31:040 per the statutory authority of KRS Chapter 217B requires that facilities storing and handling bulk pesticides and fertilizers register each year with the Kentucky Department of Agriculture.

KDA Company ID: _____ (if available/applicable)

Facility Name: _____

Facility Mailing Address: _____

Email Address: _____

Facility Owner/Manager Name: _____

Facility Phone Number: _____ **Facility Registration Year:** _____

Facility Storage Tanks and Operational Areas (Complete all applicable sections and all relevant questions with regard to your facility for each section in this registration form):

1) **BULK LIQUID PESTICIDE STORAGE TANK(S):** YES ___ NO ___

a) **Tank Capacities:**

(Please give the common name of the product below)

Tank #: _____ **Capacity (gallons):** _____ **Product Name:** _____

Tank #: _____ **Capacity (gallons):** _____ **Product Name:** _____

Tank #: _____ **Capacity (gallons):** _____ **Product Name:** _____

Tank #: _____ **Capacity (gallons):** _____ **Product Name:** _____

Tank #: _____ **Capacity (gallons):** _____ **Product Name:** _____

Tank #: _____ **Capacity (gallons):** _____ **Product Name:** _____

Tank #: _____ **Capacity (gallons):** _____ **Product Name:** _____

Tank #: _____ **Capacity (gallons):** _____ **Product Name:** _____

Tank #: _____ **Capacity (gallons):** _____ **Product Name:** _____

Tank #: _____ **Capacity (gallons):** _____ **Product Name:** _____

b) Operational Containment Areas:

(These are facility areas where agrichemicals and/or liquid fertilizers are transferred between container including, unloading, repackaging, mixing and equipment cleaning.)

- i. Does the facility have secondary containment of the pesticide storage tanks?

YES____ NO____ PARTIAL____

If **YES OR PARTIAL**, describe type of secondary containment structure(s): _____

- ii. Does the facility warehouse fill mini-bulk containers?

YES____ NO____

- iii. Does the facility have secondary containment for the largest single mini-bulk container warehoused?

YES____ NO____

- iv. Does the facility have a contingency response plan for immediate clean-up of warehouse spills?

YES____ NO____

- v. Does the facility have loading area containment structures that provide for containment and recovery of spillage from mixing and loading of liquid pesticides and equipment washing?

YES____ NO____ PARTIAL____

If **PARITAL**, provide the following details about the containment area:

Loading Pad Containment? YES____ NO____

Loading Pad under Roof? YES____ NO____

Loading Pad Enclosed? YES____ NO____

Recovery/Recycling System? YES____ NO____

Mixing and Repacking Area Containment? YES____ NO____

Wash Pad Containment? YES____ NO____

Wash Application Equipment in Field? YES____ NO____

2) BULK LIQUID FERTILIZER STORAGE TANK(S):

a) Tank Capacities:

(Please give the common name of the product below.)

Tank #:	_____	Capacity (gallons):	_____	Product Name:	_____
Tank #:	_____	Capacity (gallons):	_____	Product Name:	_____
Tank #:	_____	Capacity (gallons):	_____	Product Name:	_____
Tank #:	_____	Capacity (gallons):	_____	Product Name:	_____
Tank #:	_____	Capacity (gallons):	_____	Product Name:	_____
Tank #:	_____	Capacity (gallons):	_____	Product Name:	_____
Tank #:	_____	Capacity (gallons):	_____	Product Name:	_____
Tank #:	_____	Capacity (gallons):	_____	Product Name:	_____
Tank #:	_____	Capacity (gallons):	_____	Product Name:	_____
Tank #:	_____	Capacity (gallons):	_____	Product Name:	_____

b) Operational Containment Areas:

(These are facility areas where agrichemicals and/or liquid fertilizers are transferred between containers including, unloading, repackaging, mixing and equipment cleaning.)

Is this containment area the same area used for liquid pesticides? YES _____ NO _____

If NO, answer the following questions about the liquid fertilizer containment area:

i. Does the facility have secondary containment of the fertilizer storage tanks?

YES _____ NO _____ PARTIAL _____

If YES OR PARTIAL, describe type of secondary containment structure(s): _____

ii. Does the facility warehouse fill mini-bulk containers?

YES _____ NO _____

iii. Does the facility have secondary containment for the largest single mini-bulk container warehoused?

YES _____ NO _____

iv. Does the facility have a contingency response plan for immediate clean-up of warehouse spills?

YES _____ NO _____

v. Does the facility have loading area containment structures that provide for containment and recovery of spillage from mixing and loading of liquid pesticides and equipment washing?

YES _____ NO _____ PARTIAL _____

If **PARTIAL**, provide the following details about the containment area:

Loading Pad Containment?	YES	NO
Loading Pad under Roof?	YES	NO
Loading Pad Enclosed?	YES	NO
Recovery/Recycling System?	YES	NO
Mixing and Repacking Area Containment?	YES	NO
Wash Pad Containment?	YES	NO
Wash Application Equipment in Field?	YES	NO

3) **DRY FERTILIZER STORAGE, BLENDING AND HANDLING:**
YES _____ NO _____

(Check all item(s) that best describe your facility's complex.)

a) **Facility Characteristics:**

i. **Storage:**

a. Type: Enclosed Building _____ Open Front Building _____
Other _____ (describe below)

b. Approximate Tons: _____

c. Does facility store Ammonia Nitrate? YES _____ NO _____

d. Receiving (check all that apply): RAIL _____ TRUCK _____ BARGE _____

ii. Weigh Hopper: UNDER ROOF _____ OUTSIDE _____

iii. Blender: UNDER ROOF _____ OUTSIDE _____

iv. Applicator Loading: UNDER ROOF _____ OUTSIDE _____

b) **DRY FERTILIZER IMPREGNATION OPERATION:** YES _____ NO _____
