

A594 – BULK BEEF RECALL  
HALLMARK/WESTLAND

As most of you have already heard the “HOLD” has been changed to a “RECALL” and as with all recalls there is more paperwork to complete.

ECOS has a great deal of information pertaining to the Recall, but for your convenience we have attached the instructions and the form that requires completion. We have also attached a spreadsheet to assist you in figuring your reimbursement cost.

The Destruction Verification and Reimbursement Form require signatures of two witnesses and you must also attach original bills/receipts for cost incurred.

Under Brief Description of Cost to be Reimbursed include, fee-for-service cost, delivery cost and destruction cost, if any.

Should you have questions or need further guidance, please contact Bill Wilson, Ann Smith or me by email.
