

Kentucky Department of Agriculture Industrial Hemp Research Pilot Program 2017 Processor/Handler List

The following companies are some of the current Kentucky processor participants in the Kentucky Department of Agriculture (KDA) Industrial Hemp Research Pilot Program. This is not a complete list of processors. The list includes only those processors that elected to have their contact information publicized. Listings are in alphabetical order.

KDA does not specifically recommend or endorse any of these companies. Some of these companies are still in the planning phase and none of them are obligated to accept new growers. Any contract or monetary exchanges are solely between these companies and those they contract with. KDA recommends that any participant carefully read and fully understand the terms with any processor before signing a contract. All parties are encouraged to read the *KDA 2017 Transfer Requirements* document located on the Hemp Program website.

Raw industrial hemp in Kentucky remains a controlled substance outside the KDA Industrial Hemp Research Pilot Program. Any grower or processor must be approved through the application process with KDA to handle raw hemp materials. Please visit www.kyagr.com/hemp for more information about how to apply and about the KDA program in general.

Row #	Processor / Handler	Research Focus Area*					Other Focus Areas
		Grain	Fiber	Floral Material ^	Seed / Transplants	Laboratory Analysis
