

2021 Dicamba Training Opportunities for Applicators

Syngenta sponsored training webinars:

As an alternative option to online dicamba specific training, Syngenta is pleased to announce three convenient live dicamba training webinars. Each webinar is designed to meet the US EPA requirement for mandatory annual dicamba training that is required for Tavium® Plus VaporGrip® Technology, XtendiMax® With VaporGrip® Technology and Engenia®. Training is reciprocal across brands, meaning an applicator only needs to take 1 dicamba specific training each year.

Applicators may register for one of the below live webinars that will be hosted by Syngenta.

1. January 21, 2021 @ 9:00 AM – 10:30 AM EST
2. January 28, 2021 @ 9:00 AM – 10:30 AM EST
3. February 4, 2021 @ 9:00 AM – 10:30 AM EST

Please note that Florida, Georgia, Alabama and North Carolina do not accept online or live webinar training.
