

Kentucky Department of Agriculture Industrial Hemp Research Pilot Program 2019 Seed and Transplant Providers List

The following companies are some of the current Kentucky Licensed Growers and Licensed Processor/Handlers in the Kentucky Department of Agriculture (KDA) Industrial Hemp Research Pilot Program. This is not a complete list of License Holders. The list includes only those License Holders that elected to have their contact information publicized for the purpose of selling seeds and/or transplants to other License Holders. Listings are in alphabetical order.

KDA does not recommend or endorse any of these businesses or individuals. Some of these entities may still be in the planning phase, and none of them are obligated to accept orders. Any contract or transaction is solely between License Holders. All parties must read the KDA *2019 Transfer Requirements* document located on the Hemp Program website at <http://www.kyagr.com/marketing/hemp-restrictions.html>, as well as 302 KAR 050:020, Sections 11-14 and Sections 21-22, and 302 KAR 050:030, Sections 10-13 and Sections 16-17.

Please note, if you are seeking seed, transplants, or planting materials from Kentucky License Holders, only hemp seed or plants grown in the Kentucky Industrial Hemp Research Pilot Program are eligible for transfer outside of the Commonwealth of Kentucky. Seed imported by the KDA from other countries under a DEA Import Permit is restricted to cultivation by KDA Hemp License Holders.

Some cautions to both buyers and sellers:

- 1) All transfers out-of-state to other research pilot programs are at your own risk. KDA does not regulate hemp materials outside the Commonwealth of Kentucky.
- 2) Any variety or named strain designated as a Variety of Concern in the KDA *Summary of Varieties* document is not eligible for sale or transfer outside the Commonwealth of Kentucky. There is no cultivation, sales, or transfers of Prohibited Varieties allowed. For more information, please refer to the complete *Summary of Varieties List* at <http://www.kyagr.com/marketing/hemp-license-holders.html>.
- 3) KDA License Holders planning to purchase planting materials from another state pilot program must receive pre-approval in writing from KDA by submitting a *Domestic Seed/Transplant Request* form.

Kentucky law KRS 260.858, Section(3) specifies, "*It is unlawful for a person who does not hold a license issued by the department, or who is not an agent of a licensee, to cultivate, handle, process, or market living industrial hemp plants or viable seeds, leaf materials, or floral materials derived from industrial hemp. Penalties for persons who cultivate, handle, process, or market living industrial hemp plants or viable seeds, leaf materials, or floral materials derived from industrial hemp without a license are the same as those penalties that are applicable to persons who violate KRS Chapter 218A, relating to marijuana.*"

Please visit www.kyagr.com/hemp for more information about how to apply for a hemp license.
