

**KDA/OSV Recommendations for Equine Events within Kentucky
incorporating High Risk Equine Population (Rodeo and Barrel Horses)**

The OSV Recommendation for Kentucky venues hosting events for High-Risk Equine Populations (e.g. – Barrel horses, Rodeo horses):

A) Recommend using the same CVI Requirements for all High-Risk Equine Population movements as the requirements for Interstate Movements - See OSV Website

B) Additionally, it is recommended that the venue provides a designated isolation area for horses exhibiting suspected or clinical signs of disease/sickness at an event.

Recommendations will be in effect for the next 30 days from Dec. 05, 2025:
